

Drupal 6 & Ubercart 2 Product Attributes & Options Tutorial

"Number 9"

A one of a kind hand painted by the artist himself with airbrush on a tie dyed, crystallized, white t-shirt or tank top. The "Number 9" original artwork t-shirt was inspired by the 1960's English rock band The Beatles & rock band icon John Lennon who's music and lyrics will be forever playing in my head and swirling around my mind, influencing everything little I do!

Each Infinitee Rock T-shirt is hand silk-screened and hand painted with airbrush making them one of a kind original works of art and collectors items. Feel free to contact us about custom colors on the Crystallized shirts.

Features:

- Heavy weight 100% cotton T-shirts & Tank Tops
- Hand silk screened & airbrushed by the artist
- Print sizes are approximately 18" x 20"
- Tie Dye Colors: Purple, Blue and Magenta
- Crystallized: Blue, Purple, Fire, Blue & Purple, Rainbow
- Sizes: Small, Medium, Large, X-large, 2X & 3X

Hand painted with airbrush for a soft touch feel!

Product "Attribute"...

Options -

Multiple options for shirt type, style, color, and size.

Each option can have multiple selections for each option.

Ubercart product attributes and options

Workflow:

- Create an attribute.
- Add options to the attribute.
- Add the attribute to products.

This tutorial assumes that you have already installed and implemented all your settings for Drupal and Ubercart.

Creating attributes & adding options to your Ubercart products

► "FINDING ALL YOUR ATTRIBUTES"

You can find the complete list of all your stores attributes as well as links to edit and add options to the individual attributes at:

<http://www.Your-Infinitee-Website.com/admin/store/attributes> (Replace "<http://www.Your-Infinitee-Website.com>" with your website's URL address)

Name ▲	Label	Required	List position	Number of options	Display type	Operations
Black shirt sizes	<none>	Yes	1	2	Select box	edit options delete
Black shirt styles	<none>	Yes	0	2	Select box	edit options delete
Color	Color	Yes	-8	10	Select box	edit options delete
Message To Recipient	Message To Recipient	No	0	0	Text field	edit options delete
Recipient's Email Address	Recipient's Email Address	Yes	0	0	Text field	edit options delete
Shirt Type	Shirt Type	Yes	-10	4	Select box	edit options delete
Size	Size	Yes	-7	6	Select box	edit options delete
Style	Style	Yes	-9	3	Select box	edit options delete

Ubercart attributes list

► "CREATING NEW ATTRIBUTES"

1. Go to one of the Add attributes admin page.

<http://www.Your-Infinitee-Website.com/admin/store/attributes/add> This attribute will be for my t-shirts sizes. You can create additional attributes for your needs such as colors, styles, name brands etc.

2. For your reference on the the attribute list, give your attribute a Name (make it descriptive and short. Only administrators will see this) e.g.: T-shirt size

3. The "Label" field will add some text that will be displayed to your customers. Use <none> if you don't want a label to appear at all.

4. In the "Help text:" field you can give your customers some helpful hints on what to put in the field. You can leave it blank if you want to e.g. Please select a size.

5. "Optional" Check "Make this attribute required, forcing the customer to choose an option".

6. Display type:... Select one of either Text field, Select box, Radio buttons or Check boxes.

Attributes

Overview Add an attribute

Name: *
T-shirt size
The name of the attribute used in administrative forms

Label:
Size
Enter a label that customers will see instead of the attribute name. Use <none> if you don't want a label to appear at all.

Help text:
Please select a size
Optional. Enter the help text that will display beneath the attribute on product add to cart forms.

Make this attribute required, forcing the customer to choose an option.
Selecting this for an attribute will disregard any default option you specify. May be overridden at the product level.

Display type:
Select box
This specifies how the options for this attribute will be presented. May be overridden at the product level.

List position:
0
Multiple attributes on an add to cart form are sorted by this value and then by their name. May be overridden at the product level.

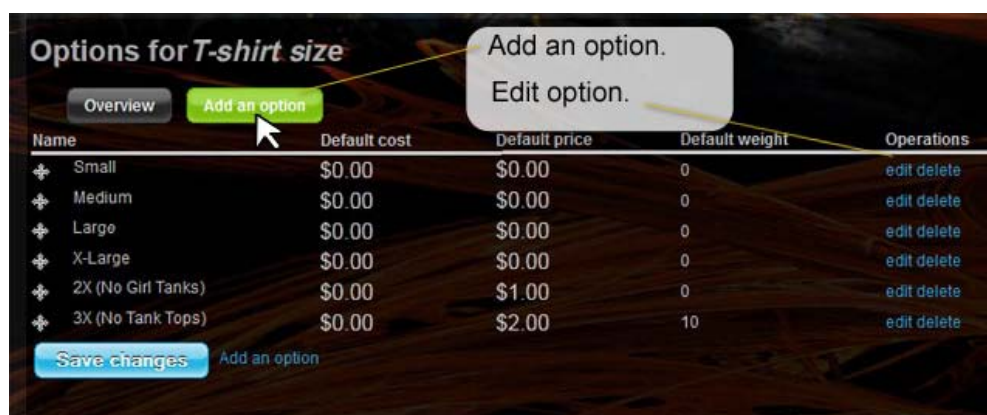

Submit Cancel

Create an attribute fields on the Add an attribute administration page.

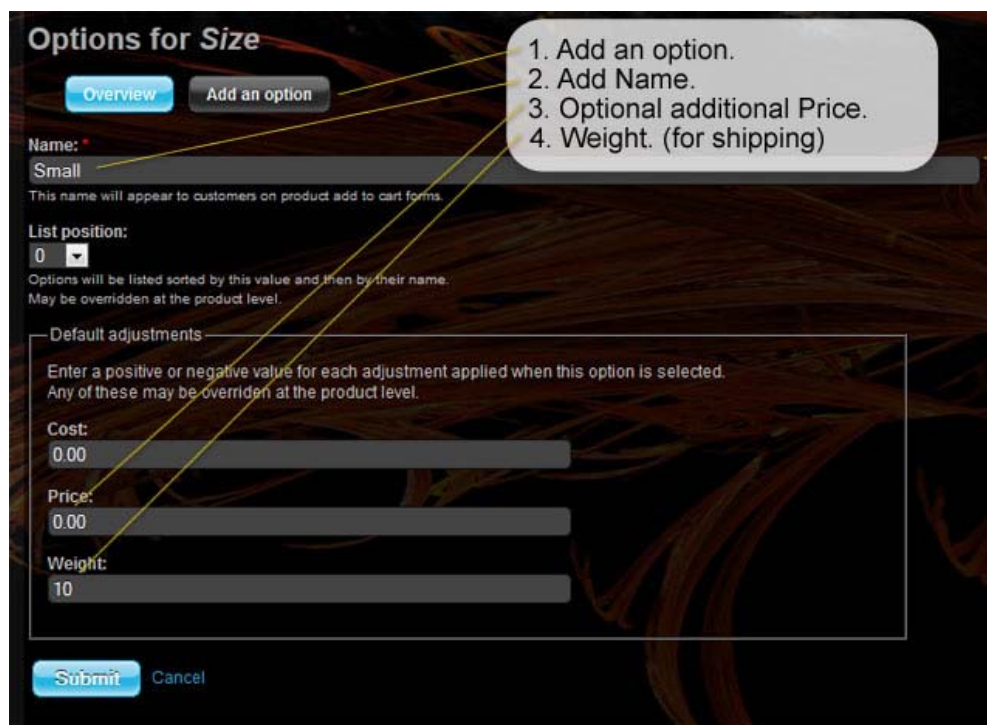

► "ADDING OPTIONS TO THE NEW ATTRIBUTE"

Once you have created an attribute, you can add options. You can find the complete list of all your stores attributes as well as links to edit and add options to the individual attributes at:

<http://www.Your-Infinitee-Website.com/admin/store/attributes> (Replace "http://www.Your-Infinitee-Website.com" with your website's URL address)

Options list, editing and reordering page.

Setting option fields.

1. Click the "Add an option" button.
2. In the next window, add a Name for the option. e.g.: Small, Medium, Large... 1,2,3... Red, White, Blue.
3. You can add an Optional additional Price. (good for balancing out your costs. If you pay more for an item you can pass the cost on to your customers)
4. Weight. (for shipping)

► "EDITING AND RE-ORDERING"

Once you have created an option you can go back and edit it by clicking the "Edit" link in the attributes admin page.

You can also re-order the placement of the options by click, hold and dragging the control handle up or down in the list. You can also, set the list position by number 25 is top "0" zero is middle and -25 is bottom. Any items with a list position set will also be categorized alphabetically. So, if you have an item in the list named small set to 1 and one named bigger set to 1, the one named bigger will be above small due to its alphabetical "b" before "s" categorizing.

You must click "Save changes" or forms changes will not be submitted.

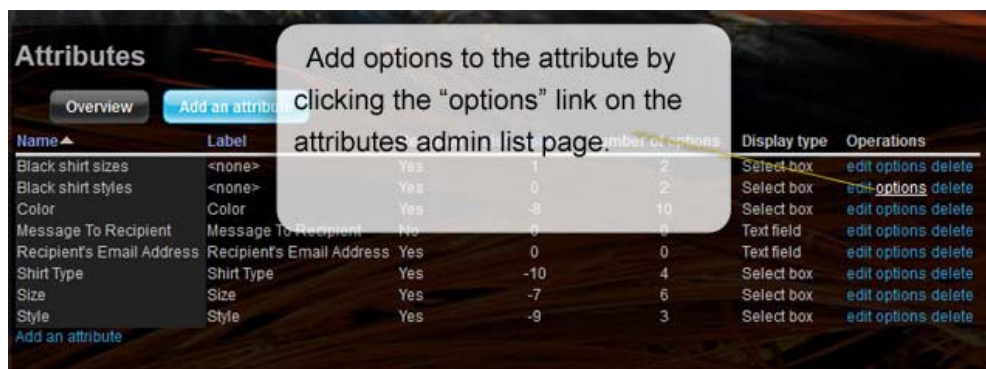

Edit option and/or re-position

▶ "ADDING OPTIONS TO AN ATTRIBUTE"

1. Go to one of the Add attributes admin page.

<http://www.Your-Infinitee-Website.com/admin/store/attributes> (Replace "http://www.Your-Infinitee-Website.com" with your website's URL address)

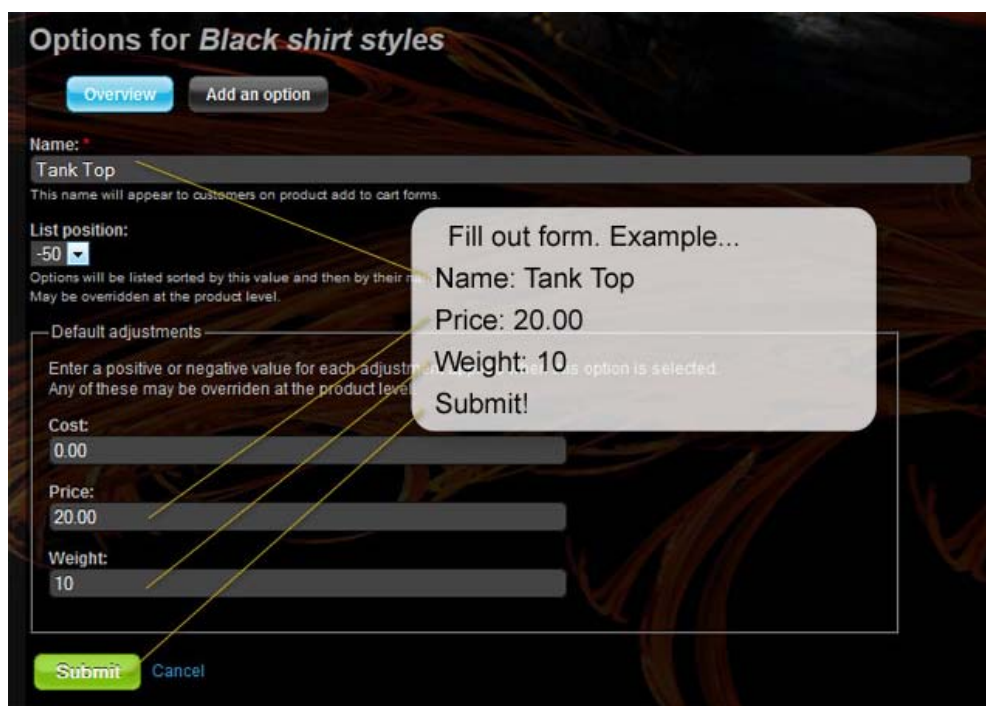

2. Add options to the attribute by clicking the "options" link on the attributes admin list page.

Add options to the attribute by clicking the "options" link on the attributes admin list page.

3. On the next page, click the "Add an option" button.

4. Fill out the form to your needs and hit "Submit".

Adding variables to an option.

5. The next page will be a fresh "Add option" page. You can add another option or if you don't need any more, hit "Overview" to check your options list for this attribute.

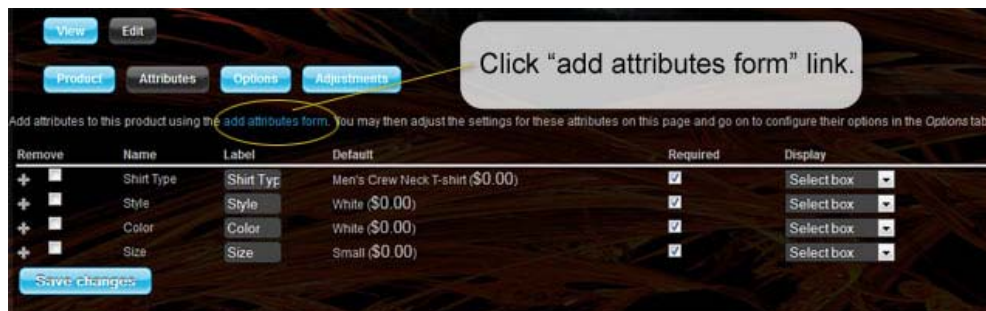

Note: You can add as many options as you need and you can always go back and change any of the variables attached to them at anytime.

▶ "ADDING AN ATTRIBUTE TO A PRODUCT"

It is a good practice to create most of your attributes and options and then adding them to your products but, you can also, create attributes and options on the fly within the products edit admin pages themselves.

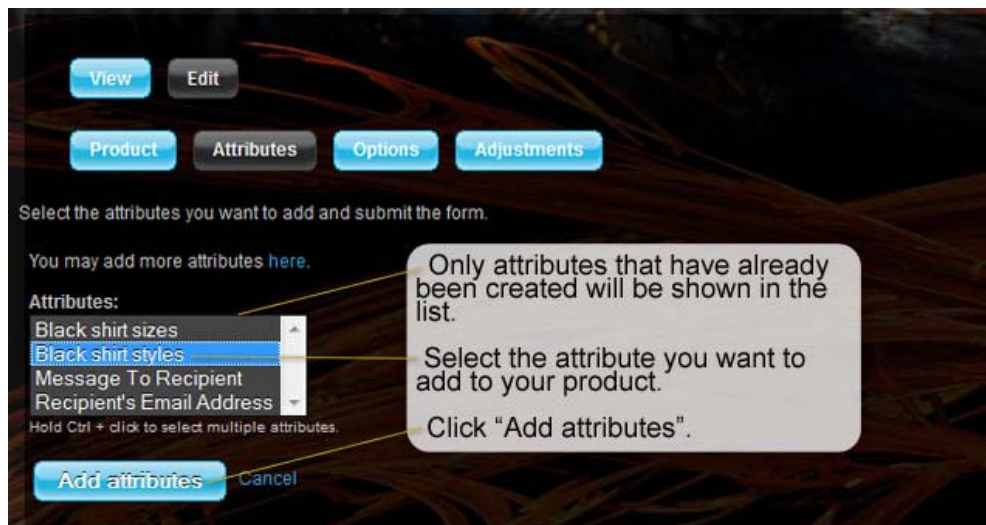

Adding an attribute that has already been created with the instructions above.

1. Create a new product or open an existing one that you want to add attributes and options to and click the "Edit" button.
2. On the product's edit admin page, click the "Attributes" button.
3. On the product's edit attributes page, click the "add attributes form" link.

Finding the "Add Attributes Form" link

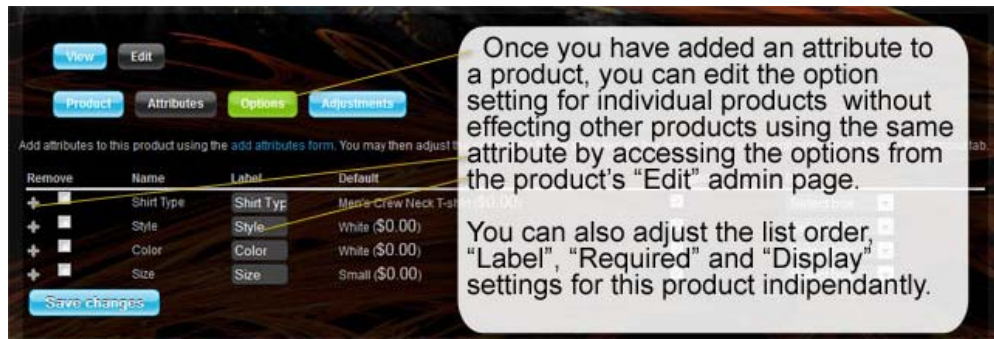

4. On the next page, select an attribute from the select box list and hit "Add attributes". You can select multiple attributes by holding Ctrl + selecting one or more from the list. (Command + selecting one or more from the list... on a Mac).

Selecting attributes to add to Ubercart products

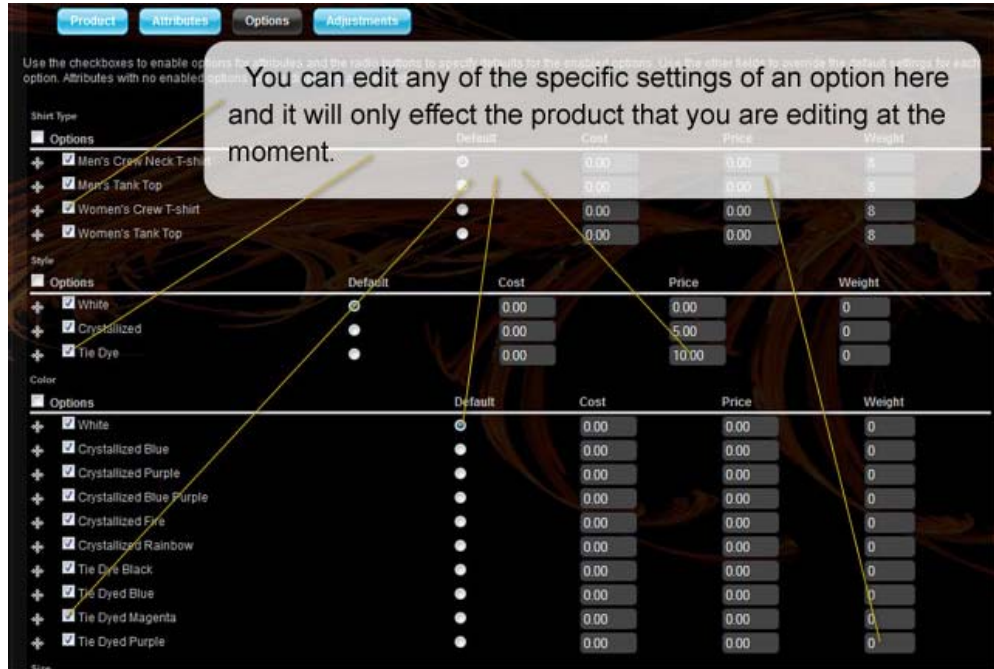

▶ "ADDING AND EDITING ACTIVE PRODUCT OPTIONS"

Once you have added an attribute to a product, you can edit and add more options... You can also adjust the list order, "Label", "Required" and "Display" settings for this product independently.

Adding and editing "Options"

1. Click the "Options" button.
2. Edit the options settings to your hearts content!.

Editing an individual products "Options"
